DAHLIA DALE

1926

Dahlias and Cannas

GENERAL DIRECTIONS

Reserving Bulbs—

An order for any number of bulbs will be reserved and held until April 15th if 10 per cent of the amount is enclosed with the order. This gives all a chance to order early without sending much money before the tubers are wanted.

Forwarding—

All bulbs are mailed postpaid and insured. We acknowledge receipt of all orders and notify customer when they will be shipped.

Terms—

As we do only a retail business all orders should be accompanied by cash. Send money in the manner most convenient. Stamps are acceptable for orders amounting to less than \$1.00.

Guarantee—

Every bulb from our garden is guaranteed true to name and to be in perfect growing condition when delivered. We will cheerfully replace any that prove otherwise. We send out only sprouted bulbs.

Descriptions—

It is hard to describe colors in a printed catalog, but we have been very careful to get as accurate descriptions as possible. The heights given in this booklet are those to which the Dahlias grow in our garden. Soil and climatic conditions may cause this to vary in different localities, but the proportion of heights should remain the same.

Instructions for Growing—

Full instructions for the growing of Dahlias will be found in this book, but it should be remembered that the most necessary thing to produce good flowers or vegetables is to keep the ground cultivated and the plants in rapid growth.

Results—

We always like to hear from our customers, as to their success or failure with Dahlias and we are never so busy but what we can answer all inquiries regarding this wonderful flower.

Our Catalog—

Is mailed in January of each year to all who request it, and to all who have ordered tubers of us during the three years previous. We appreciate receiving names and addresses of any persons who are interested in growing Dahlias.

Labels—

All tubers coming from our gardens are plainly marked with wooden labels wired securely to roots with copper wire. Names of Dahlias are printed on these labels—not written—and are always legible.

MABLE THATCHER

AN AMERICAN FLOWER

Being a native of the high lands of Mexico where the seasons are long, but cool, the Dahlia will do its best in a similar climate. While the season in the Colorado mountains is not so long, the cool nights and sunny days with the aid of artificial watering seems to bring the Dahlia to perfect development. It is a plant that adapts itself to any climate or soil, but during the hotter days of summer in some parts of the country it refuses to bloom. If given plenty of water and the soil kept well cultivated a reward of an abundance of blossoms will be the result in the later and cooler months.

In the following list of Dahlias may be found these types:

Show— The old fashioned Dahlia which produces a ball-shaped bloom, large and well formed with quilled petals. Usually solid colors, but they may have petals shaded at the tips. See "Acquisition."

Decorative— This type is shown in the large loosely arranged flowers, with nearly flat petals. A specimen of this type is "Delice."

Paeony-Flowered— The paeony-flowered and decorative varieties are very similar. The first usually has twisted petals and should always show a yellow center. See "Fantastique."

Cactus— One of the most popular types—owing to its twisted and pointed petals. This is the class that most resembles the chrysanthemum. "Mrs. Edna Spencer" shown on the previous page is an ideal cactus Dahlia.

Besides the types named above, there are single, collarette and pompon Dahlias which we do not grow. The four classes described above are also subdivided into other classes such as Fancy, Hybrid-show, Hybrid-Cactus, Duplex, Century, etc. As experts do not agree on the classification of some Dahlias it is useless for us to attempt to separate them except into the four general groups. The Dahlia Society of Colorado does not recognize all these types as it is too confusing to the exhibition. Climate also changes the type of the Dahlia as well as the depth of its color.

Variegated and bi-colored Dahlias cannot always be depended upon to produce true flowers as they have a tendency to change to the darker colors. This is especially so with "Le Grande Manitou." We notice in our garden (and other growers report the same) that this beautiful flower gets darker each season and in a few years it may run out entirely. "Purple Manitou" is a sport from "Le Grande Manitou" and we find a very small percent of the plants throw variegated flowers.

A CACTUS DAHLIA

LIST OF DAHLIAS

Acquisition	(Show)—A large, nicely shaped flower of an unusual color—rich, royal, deep mauve. The stem is long and strong and the blooms are held well up above the plant which is strong and thrifty. Price.....	25c
Anna Maier	(Decorative)—A huge decorative of most peculiar coloring, one of those shades so difficult to do justice to in description. A pinkish red like old velvet, varying to soft yellowish red towards the center. The blossoms are borne aloft on long wiry stems well above the foliage. Price..	50c
Black Beauty	(Paeony-flowered)—Dark dahlias are scarce and there is always a demand for them. It is the biggest and blackest peony we have ever seen. The stems are long and stiff. Price.....	50c
Berch Van Heemstede	(Paeony)—A pure yellow with a rich golden sheen. The flowers are very large and fluffy and of free-blooming habit. The stems are good and the plant is a sturdy grower. Each	25c
Blue Bird	(Paeony-flowered)—Color is of the deepest tone of mauve or lilac, which in certain lights has a bluish sheen. A simply huge blossom held on stems long and stiff as bamboo. The bushes are always laden with blossoms—one of the most striking dahlias in the garden. Each...	75c
Breeze Lawn	(Decorative)—The largest flower of the brightest red with only one fault—short stems. This can be remedied by disbudding, which gives still larger flowers on good stems. For garden glow no dahlia can beat this one as its color has never been equaled. It is a very free bloomer for a dahlia which produces such large flowers. Price.....	50c
Carmencita	(Decorative)—One of Bessie Boston's California wonders. She says of it: "The most graceful and beautiful of the new decoratives. The yellow blossom is regularly striped red. The plant is a dwarf grower but forms a fine compact bush which is a mass of flowers all season. The formation of the enormous flower is uncommon and graceful. The stems are all to be desired and no blossom will last longer when cut." Each.....	\$1.00
Cerise	(Paeony-flowered)—Irresistible because of stem, color and keeping qualities. A deep cerise bloom which grows right at the top of an exceedingly long stem. The flower is large and the plant grows to good height.....	75c
Cream King	(Decorative)—This is usually classed a paeony, but with us a very large percentage of the blooms come perfect decorative. The color is as the name indicates, a soft cream. It is of immense size, blooms freely, and is supported by the best of stems.....	75c

Chicota— (Decorative)—An ideal golden yellow of large size and exceptionally long stems which hold the flower well above the foliage. Flower perfect in form and clear in its rich golden yellow. Fine. See illustration on this page. Each..... **50c**

Daddy Butler— (Cactus—A Bessie Boston creation of which she says: "This is a large hybrid cactus of the truest form for exhibition. The many petals are perfectly rolled. Its bewildering color makes it distinctive among hundreds of varieties. It has the appearance of a variegated bloom but is not. The color is of the American Beauty rose shades, or rosy carmine. The reverse of the petals is a lighter tint, giving a variation of color. We know of no other Dahlia like it. Stem perfect and we never grew a Dahlia which was a heavier producer of blossoms from the start to the finish of the season." Price..... **\$1.25**

**DELICE**

tracted the greatest attention whenever exhibited. The plant is a vigorous and sturdy grower, and a heavy producer of blossoms. It grows to be about six feet tall for us. Price, each.....

Eleanor Stisser— (Decorative)—Flowers are very large and full. A strong and healthy plant bearing large flowers of a buff color, shading to pink and old rose. Plants grow to about six feet in height. Price.....

Elsa— (Paeony-flowered)—One of the best white Dahlias in the paeony class. The large flowers on good stems show the yellow center surrounded with long waving petals of glistening white. Price, each.....

Empress of Asia— (Peony)—Very large. Golden orange. An early and free bloomer. Stems long but pendant. Each.....

Fantastique— (Paeony-flowered)—No Dahlia in our garden or in our exhibit at the Colorado Dahlia Show attracted more attention than Fantastique. Color is dark red and white and the shape is more fascinating. See illustration on page 10. The stems are good. Being a variegated Dahlia it sometimes produces flowers of a solid color. Price each.....

Flo Hvland— (Decorative)—A rank, healthy grower, producing a wealth of large perfectly formed flowers on long stems. Color, clear rich lavender. A fine cutting variety. Price.....

Dakota— (Decorative)—One of Judge Marean's introductions producing very large exhibition flowers of good form on good stout stems, color a deep tone of rich coral-red with coppery suffusion; a good decorative garden variety.... **25c**

Delice— (Decorative)—A large Dahlia of beautiful form and splendid size. It is an exquisite glowing rose pink, a soft yet brilliant color; one of the most beautiful we know. **25c**
See illustration. Price.....

Dr. I. B. Perkins—

(Show)—An ideal white show Dahlia with long stems and large flowers. Excellent for both cutting and garden decoration. Plant grows to be about four feet high. **25c**
Price, each

Dr. Tevis— (Decorative)—A magnificent blossom of a blend of copper, old rose, and old gold. Immense flowers with the best possible stems. This Dahlia has at

least 100 flowers on each stem.

Price, each..... **50c**

Frau Holtzendorf—

(Paeony-flowered)—Large rose pink blossoms on a good stem; flowers always come full. The pleasing color and free-blooming qualities of this variety make it one of the best Dahlias. Each..

25c**Frau Scheiff—**

(Paeony-flowered)—One of the most admired of the newer decoratives. The color is a bright, lively chamois with a faint suggestion of orange suffusion. Petal arrangement is quite distinct, often showing the coppery orange of the reverse by their peculiar twisting.

Price

50c**F. W. Craig—**

(Decorative)—Very large, from 6 to 9 inches across. Clear lemon yellow, without shading. Early and free bloomer....

25c**Geisha—** (Paeony-flowered)

—The showiest and most attractive of this type yet introduced. Petals very long, curved and twisted. A rich combination of scarlet and gold, shaded to amber yellow. A queen among Dahlias. Ea..

75c**Gen. Rosalie Jones—**

most large cactus Dahlias. The stems are straight and stiff and of good length. An exceptionally good keeper. See illustration on this page. Price.....

25c**Geo. W. Gero—**

(Show)—A seeding of the popular Grand Duke Alexis, which it resembles closely in form, only the flower is a little more densely quilled. A rank, healthy grower, producing a wealth of large perfectly formed flowers on long stems. Color, clear rich pink. Each.....

25c**GEN. ROSALIE JONES**

(Cactus)—The flowers are a most beautiful pure yellow, always come perfect and are very full petaled and more refined than

the flower is a little more densely quilled. A

rank, healthy grower, producing a wealth of large perfectly formed flowers on long stems. Color, clear rich pink. Each.....

Glory of New Haven—

(Decorative)—In this we have a massive flower on a long, strong stem. It is a clear light lavender a little deeper in color than "Millionaire" and much better for cutting. For exhibition purposes it will not equal "Millionaire," but for all other purposes we prefer it. Price.....

75c

Glory of Nijkerk—

(Peony-flowered)—Extra large flowers of a beautiful cerise shade of purple violet; a wonder; attractive, deep spreading flower; fine stems and beautiful cut foliage. A recent introduction. Price

25c

Golden Bedder—

(Decorative)—This is Burbank's "Golden West," but generally is sold under the name listed here. It is pure canary yellow, petals cleft at tips and has a good stem. A free bloomer. Each.....

25c

Golden West—

(Cactus)—A wonderful California Dahlia, free blooming on long stems. This, with its good keeping qualities, makes it an excellent cut flower variety. In color it is a golden yellow, and in form and size all that can be desired. Tubers, each.....

50c

Hortulanus Fiet—

(Decorative)—One of the largest decoratives which will produce an abundance of flowers on long stems. The color is shrimp pink and the tips of each petal is touched with gold. One of the best Dahlias in its class. Price.....

75c

GEISHA

Isa— (Paeony-flowered) — Light fawn pink, changing with age to amber yellow. A free and constant bloomer. Stems very long and wiry. Very attractive for evening decoration. Each

25c

Jupiter—

(Paeony-flowered) —In this very fine variety the petals are quilled, the flowers which stand erect on stiff, wiry stems, attain an enormous size and are great for the exhibition table. The color is a bronze and draws immediate attention in a collection. Strong grower and good producer, the plant averages in height 6 feet. This variety was the tallest in our garden, some blooms being 9 feet from the ground. A very showy Dahlia. Each

50c

Jessie Williams—

(Hybrid Cactus) —Large, elegant flowers of a clear lilac rose; long, strong stems. It is an exhibition and garden sort of rare merit. Price.....

50c

John Alden— (Decorative)—Royal purple, the best of its color, splendid for exhibition and cutting. Price **\$1.25**

King of Autumn— (Decorative)—One of the best Dahlias of the autumn shades. A wonderful bloomer with nicely formed flowers on long stems. While the blossoms are not large it is one of the most popular Dahlias we grow and its flowers are always in demand. Tubers, each.... **75c**

King of Shows— (Show)—Deep butter yellow of a solid color throughout. Every petal is most perfectly quilled and uniquely formed. A mammoth flower, on long stems. It is without doubt the finest Show Dahlia ever grown and should be seen to be appreciated. Price..... **\$1.00**

La Favorita— (Cactus)—A beautiful brilliant salmon; shading from a dark reddish salmon in the center to salmon-pink at the twisted points. Form perfect, showing a full center even late in the season. Each bloom carried on a strong stem. A first-class cut flower variety. Price..... **\$1.00**

Laura Barnes— (Paeony-flowered)—One of the grandest paeony Dahlias ever introduced. The immense orange-red flowers are pleasing to all. It is today one of the most popular Dahlias of recent introduction. Each.... **25c**

Le Grande Manitou— (Decorative)—Ground color, pale pink, striped, spotted, blotched with deep reddish violet. Borne on stout, stiff stems. Sometimes the flowers come in a solid color which is a beautiful deep violet. If you do not grow this wondreful Dahlia now you should secure it at once. Each... **25c**

La Toreador—

(Decorative)—A true type of crimson color; the finest of its color so far produced. It is a very free bloomer having strong wiry stems. Each..... **\$1.50**

Lluvia D'Ora—

(Paeony-flowered)—Shower of Gold. Soft orange, red shaded, to golden yellow. A seedling of the popular Geisha, which it resembles in color. Flower extra large and fluffy. Each..... **50c**

Louvenhelrich—

(Decorative)—Color white, with carmine splashes. Each **25c**

**FANTASTIQUE****Lucy Davis—**

(Decorative)—Flowers are large, yet giving no impression of coarseness so often met in some of the late large dahlias. The form is that of the perfect decorative type. Stems are long—often 18 inches, yet strong and wiry. The plant is a strong, robust grower and a prolific root maker. Color, rich golden apricot, clear and without shading. A color pleasing in both day and evening light. A Wilmore' origination..... **\$1.00**

Mabel—

(Decorative)—A clear lavender flower of medium size. Stems are good and the strong plant produces an abundance of bloom. This is one of the best medium priced lavender decoratives grown. Price, each..... **50c**

**Mariposa—**

(Cactus)—The picture does not do justice to the flower. A perfectly formed hybrid type composed of long, narrow incurved petals which twist and curl so they baffle a photographer. A delightful shade of true pink which is intensified by a deeper colored center. A faint violet suffusion adds to the effect. The veining of the petals heightens the beauty and increases the novelty of the coloring. An absolutely firm, long, stiff stem. A center which is regular and perfect throughout the season. Blooms early and keeps full of flowers the entire fall **\$2.00**

Mabel Thatcher—

(Decorative)—In this variety we have found the ideal yellow Dahlia. The plant is thrifty and robust producing an abundance of large well-formed flowers of great substance on long stems. See illustration on page 2. Price, strong bulbs, each..... **\$1.00**

**MINA BURGLE****Mina Burgle**

(Decorative)—Another California beauty that is a champion variety. It produces flowers of gigantic size and remarkable beauty—a glowing and brilliant scarlet. The flowers are of perfect decorative type and borne on long and wiry stems well above the foliage. This Dahlia is very prettily formed and is one of the best red for cut flowers. Notice in illustration above the shape of the petals and their arrangement. Price.. 25c

Meyerbeer

(Paeony-flowered)—A Dahlia where the demand is always greater than the supply. Everybody who sees it wants it. It is an immense bloom of a fascinating purple and grows on rigid stems. No garden or exhibition table is a success without it. The formation is unexcelled, and it blooms freely all season. Plants grow from five to six feet high and the big, loose flowers are held well above on long stems. This Dahlia would sell for thrice the price were it not such a wonderful producer of tubers. The best of the famous French paeony-flowered varieties. Price, each

75c

Mrs. Carl Salbach—	(Decorative)—This is the perfect cut flower variety. It has the color, the stem and the keeping qualities. Mauve pink shading to white, on stems sometimes two feet long, and of substance so good it is one of the best keepers, it is one of the Dahlias most in demand for cutting. Bulbs, each.....	75c
Mme. Coissard—	(Paeony-flowered)—A pure cerise shading to white at the center. Late in the season it is shaded white and cerise, but is always a beautiful blossom. As it is a dwarf grower, and a profuse bloomer; it makes a charming bedding variety.....	50c
Mrs. Chas. I. Seybold—	(Decorative)—A deep rose pink, edged with white; very attractive. It blooms most abundantly and continuously, has long stems and is splendid for cut flowers. The habit of the plant is free and branching, with heavy dark green glossy leaves, showing its great vigor and hardy constitution. Each.....	25c
Mrs. Edna Spencer—	(Cactus)—An exceptionally delicate shade of lavender or orchid pink. A wonderful flower of free blooming qualities. This is the Dahlia you want if you are looking for one that resembles the chrysanthemum. See illustration on back cover. Price.....	50c
Mrs. Ferdinand Jeffries—	(Cactus)—In formation the flower is irregular, its long petals are curved and twisted, giving the flower a shaggy appearance. Color, deep velvety red, combining beautifully with the rich green foliage. Each.....	25c
Mrs. John T. Scheepers—	(Decorative)—Golden primrose with delicate pink suffusions on the edge of the petals. The flowers are large, produced on strong, stout stems. A very free bloomer and vigorous grower. Average height 5 feet. Each.....	25c
Mrs. R. R. Strange—	Large; erect stems; deep copper shading to old gold. Plants are very thrifty and grow to 6 feet. Each..	50c
Mrs. Thos. Burch—	(Decorative)—Rich old gold, sometimes marked with pink, shading to fawn. An ideal autumn shade and one of the very best of the autumn tinted varieties. Flowers full size, stems long and rigid, fine for cutting. Each.....	25c
Mrs. Warnaar—	(Paeony-flowered)—A Holland Dahlia, creamy white and tinted delicate pink. This Dahlia always shows the yellow center but has cactus petals. It has a long strong stem and when given proper care will produce exquisite flowers in abundance. Price.....	75c
Mrs. W. E. Estes—	(Cactus)—A very fine, new, snowy white Dahlia of much merit. Broad and long pointed petals, forming a flower of great size borne aloft on long stems. Blooms profusely and will not burn in the sun-shine. Absolutely the best white Dahlia of any class yet introduced. Price	75c

Naiad— (Paeony-flowered)—The plant is all that could be asked in a sturdy, symmetrical growth, attaining a height of 6 feet. Blooms very freely on strong stems of remarkable length. Color a tinted cream pink. Beautiful by day and simply grand under artificial light. Each..... **25c**

Nibelungenhort— (Cactus)—Another gigantic flower of great value, both for exhibition and garden purposes. In color, a very beautiful shade of old rose, with a blending of salmon-pink and golden-apricot. The flowers often measure eight inches in diameter. Price..... **75c**

BE SURE TO LOOK OVER OUR
SPECIAL COLLECTIONS ON PAGE 1

Oregon Beauty— (Paeony-flowered)—A brilliant, gorgeous flower that attracts much attention on account of its rich color, an intense Oriental red. Produces its large flowers on long stems in the greatest profusion. A splendid garden variety. Each..... **25c**

Ora Dow— (Decorative)—A beautiful velvety maroon, effectively tipped white. This is a very strong plant, often reaching the height of six or even seven feet for us; the stems are long and straight, but the foliage is scant. Price, each

25c

Osaka Geisha— (Paeony-flowered)—To begin, this is nothing like the old favorite Geisha. The flower is huge and the stem long and absolutely stiff. The color is dull red and creamy yellow, the formation is unique. The long petals roll inward from the center and flatten towards the pointed edge of the petals. The front of the petals is yellow and the back dull red. Price..... **\$1.00**

Osam Shudow— (Decorative)—The most prominent feature of this Dahlia is in its formation. The big, heavy loose petals produce a flower much more like a gigantic rose than a Dahlia. Color is a delightful old rose slightly suffused with lilac and shading to yellow at the center. The bush is very sturdy and tall. Price, each..... **\$1.00**

Patrick O'Mara— (Decorative)—Pale gold, or orange buff, with a suggestion of Neyron rose at the outer edge of the petals. Robust grower with fine stems. Recommended as a cut flower because it lasts well.... **75c**

Paul Bonyon— (Decorative)—Beautiful, large blooms, freely produced on strong upright stems, color a salmon pink with luminous golden sheen. Each

25c

Pierre le Blonde— (Decorative)—Many Dahlia fanciers say that this is the most beautiful and satisfactory of all decoratives. Flowers are of large size on long strong stems. Color is a deep cardinal, regularly tipped white. It attracts great attention and praise wherever exhibited.. **50c**

Purple Manitou— (Decorative)—Good purples are hard to find, as most of the Dahlias listed as purple have very little of that shade in them. Here is one that will not disappoint. It is a true solid purple, large and beautiful. The stems are good, the plant strong and a free bloomer. It is the very best purple decorative grown. Price..... **25c**

Queen Elizabeth— (Paeony-flowered)—A medium sized pink flower with waved and curled petals. Stems are good, plants strong and thrifty. **50c**

Queen Esther— (Paeony-flowered)—Beautiful deep red of enormous size, good substance and long, strong stems. Each..... **50c**

Queen Wilhelmina— (Paeony-flowered)—Immense fluffy flower of pure white, with yellow center. One of the good, old varieties. Each.. **25c**

Rose —	(Show)—One of the largest and finest of the new show Dahlias. Color is a deep rose shade; will not fade in the hottest weather; extra long stems. An exceptionally fine flower; will become as popular as Delice for all purposes.	25c
Each		
Ruth Nichols —	(Paeony-flowered)—An immense flower borne on a long stem. Rich, dazzling red. A leader among the reds by reason of its great size and freedom of bloom. Strong and vigorous. Each	50c
Salome Jane —	(Hybrid Cactus)—A beautiful autumn-colored Dahlia which blooms profusely. The flower is very large and of great depth, has good keeping qualities. The stem is not as long as some Dahlias, but the plant is of thrifty habit and by taking buds long stems may be secured without damage to the plants appearance. Each	75c
Sebastopol —	(Decorative)—A pure orange Dahlia of medium size with good stem. The plant is very strong and vigorous and grows quite tall. A color out of the ordinary. Price	25c
Souvenir Doazon —	An old variety but a good red and a large blossom. Plants are very thrifty, growing 6 feet tall. Each	25c
Stradella —	(Show)—Long stems hold the large ball-shaped blossoms well above the plant and make it a good cut flower variety. Height four feet. Price, each	25c
Sulphurea —	(Cactus)—Blossom of clear sulphur yellow, and petals whorled, giving it a very attractive appearance. It is very similar in appearance to Comstock but smaller in size and lighter color. A very free bloomer and every flower has a good stem. Price, each	50c
Sunbeam —	(Decorative)—A large decorative of very refined form. Color bright red, the tips of each petal touched gold. Distinct and attractive	50c
Sunshine —	(Decorative)—A strong, study plant, always loaded with blossoms of scarlet and gold—the colors which make "Geisha" so popular. Sunshine is a long petaled decorative with good stems and large blossoms. Tubers, each	25c
Sweetheart's Bouquet —	(Paeony-flowered)—A new introduction and a beauty. Immense flowers of salmon rose, shaded with fawn. Beautiful by day and simply exquisite under artificial light. Fine long stems make it an ideal cut flower. Each	50c
Tango —	(Paeony)—Large salmon colored flowers, prolific bloomer, and a fine cut-flower variety; awarded silver medal at the Panama-Pacific International Exposition. Each	50c
Theodore Vail —	(Decorative)—A color much in demand—old gold shading to apricot. The stem is long and straight and the blossoms borne well above the foliage, making it an admirable cut flower. A Bessie Boston Dahlia Price, each	75c

Tryphinnie	A lovely flower of bright shell pink, shading lighter at the tips of the petals. At the base and throughout the petals is seen a bright golden yellow. The reverse of the petals is a rich pink, giving the flower a decidedly new color. The stem is rigid and strong.....	50c
Van Dyke	(Paeony-flowered)—Mammoth flower, salmon rose, tinted heliotrope. Petals twisted. The most popular of this type. Each.....	25c
Virginia	(Decorative)—A large lavender pink on a perfect stem. A flower greatly admired in our gardens for its good stem and delicate color. Each.....	25c
Waconda	(Paeony-flowered)—A tall rank grower, producing a wealth of finely formed flowers on long stems. Color a most intense, vivid red. An early and faithful bloomer. Each.....	25c
W. D'arcy Ryan	(Decorative)—A striking fancy of violet purple heavily tipped white. A characteristic of this Dahlia is that it is always tipped white. It never has a blossom on the bush of solid color like the usual fancies. Stem is good, size is large and it is free-flowering. This is a Dahlia which grows more popular every season. Price, each...	50c

SPECIAL COLLECTION NO. 5 12 DAHLIAS FOR \$3.00

To those who have never grown Dahlias or those who have none at the present time we offer this selection. It contains a splendid variety for color and type. Each tuber will make a good clump of roots which will easily keep over winter and give the grower an abundant stock for the next year. All of these Dahlias are listed on the previous pages excepting "Beloit" and this will prove a pleasant surprise to you. It has everything a good Dahlia needs and you will prize it more than any in the collection. They are all rightly labeled with printed labels, tubers will be sprouted and sure to grow and we will send the twelve listed below postpaid anywhere in the U. S. A. for.....

\$3.00

Le Grande Manitou	Lluvia de Ora
Queen Wilhelmina	Oregon Beauty
Geo. W. Gero	Chicota

LIST OF CANNAS

Cannas are the most economical and effective plants. They bloom from early summer until frost in all sections of the country, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded about two feet deep, and a generous amount of well-decayed manure of any kind thoroughly incorporated, and at all times freely watered. They are most effective when planted in masses of one variety, setting out the plants about two feet apart. They are also very effective when planted in mixed borders, where their long flowering season insures a constant display of color. All varieties have green foliage unless otherwise specified.

Carmine Beauty— Bright deep carmine flowers produced freely in large trusses well above the heavy dark green foliage. The intense coloring and freedom of blooming make it remarkably attractive. Each..... **20c**

Cheerfulness— Its name aptly describes the lively beauty of this charming variety. Bright fiery deep orange florets which are broadly bordered golden yellow. The large trusses are carried very erect over the massive foliage and are produced in great profusion. Each..... **25c**

Egandale— This is in every respect one of the best red flowered green-leaved Cannas. The petals measure $2\frac{1}{2}$ inches and more across; the color is a brilliant scarlet, without any spots; $4\frac{1}{2}$ feet. Each..... **25c**

Firebird— One of the best reds, a thrifly grower, producing an abundance of flower spikes of brilliant scarlet. Green foliage. Each..... **25c**

King Humbert— The grandest Canna ever offered. Large, heart-shaped leaves of purple maddler brown over bronze, the dark ribs sharply defined, crowned with immense heads of Orchid-like flowers. Individual petals are of the largest size; velvety orange-scarlet flecked carmine; rose tinted at margin and base; 4 to $4\frac{1}{2}$ feet. Each..... **25c**

The Gem— The immense trusses of flowers are borne on upright branching stems well above the foliage and are of deep cream or straw yellow color dotted with carmine; very attractive and unusually refined. $4\frac{1}{2}$ feet. Each..... **25c**

The President— This magnificent red Canna (introduced in 1918) won the gold medal from the National Department of Horticulture; and in respect for its upstanding character, distinguished attributes and splendor, was fittingly named "The President". The flowers are immense, round, firm—often 7 inches across—of extra good quality and borne in the greatest profusion. The color is unfading, pure, glowing scarlet; foliage rich green. Of all the green leaved sorts above medium height, this is the best dark red. 4 feet. Each..... **25c**

We do not allow our Cannas to dry out during winter, and the roots are nice and plump—ready for a quick start.

CULTURAL DIRECTIONS

Soil Preparation—

Spade the soil 15 or 20 inches deep, working in about one peck of well-rotted stable manure for each plant. Prepare the ground at least one week before planting time, so that it may be well settled.

Planting—

We find for this region about April 25 is the best time to plant. The roots should not be placed in the ground until about three weeks before the last frosts come for fear the plants will be through the ground and get nipped by the late cold nights. Dig a hole in the soil that has been previously prepared, about six inches deep, in which lay the tuber flat with the eye up. Cover with about four inches of soil, packing it well around the bulb, and as the sprout appears keep pulling the earth around it until the root is covered with six inches of soil. Dahlias should be planted two feet apart in rows that should not be closer together than four feet. Run the rows north and south if possible.

Cultivation—

If Dahlias are grown by irrigation they should be hoed after each watering and before the ground becomes hard or crusted. The ground should be well and deeply worked until the new bulbs begin to form, after which a frequent stirring of the top soil is sufficient. When the plants reach such size as to make hoeing difficult a mulch of straw, lawn clippings, or manure will be beneficial.

Watering—

In dry weather see that the plants get a good soaking once a week, and give sufficient water to wet the soil to the ends of the roots. Do not water often but water well. Too much water makes a brittle plant. Do not water Dahlias until the sprouts show above the ground, as water, when applied before the fibrous roots have commenced growth, sometimes rots the bulb. This is especially true when the ground is cold and the season late.

Thinning—

Never let more than one stalk develop from each bulb. Let no side branches grow within twelve inches from the ground, and the result will be one good strong and straight plant of good height. Stake the plants securely with two four-foot stakes and tie with muslin strips or some other soft material that will not cut or hurt the stalks.

Disbudding—

To secure the best flowers disbudding is necessary. This is done by pinching out two of every three buds. Buds appear in trios, and each of the outer ones should be removed, leaving only the center or axil bud to develop. Never let faded or imperfect flowers remain on the plant, as it takes its strength for no purpose.

Blossoms—

To secure the best flowers for house decorations, they should be picked in the early morning before the sun strikes them.

Keeping Cut Flowers—

(By Richard Vincent, Jr., President of the American Dahlia Society). The question is often asked by amateur gardeners: "Why did my Dahlia flowers wilt so badly and refuse to revive?

"I set them in a vase of water as soon as they are cut." Cut the flowers any time of day and if they wilt a little, so much the better. Set them in a deep dish so they will be in water up to their necks. Keep them out of drafts and when they revive they will last for days. Change the water every day, at the same time cutting off a small portion of the ends of the stems. Flowers purchased of florists have wilted and been revived, so they will not require plunging. The advice is commonly given to cut the flowers early in the day while the dew is still on them. I believe this is of no importance. I grow great quantities of Dahlias, and our cutters cut the flowers all day. Sometimes the flowers are very much wilted by the time they reach the packing shed, and these wilted flowers after we get them to recover, give the florists' customers better service than fresh cut flowers from the field. Another fact I do not believe in is putting a chemical in the water to keep the flowers fresh. At a Dahlia exhibition some years ago I selected a badly wilted Dahlia in the presence of a number of spectators, and submerged the stem in cold water for a few moments, then cutting off the end of the stem, returned it to its vase. In a few moments it appeared as fresh as when first cut.

Care of Roots—

After the frost has killed the tops, the roots can be dug and placed in the basement. It is best to wait a few days after the tops have been entirely killed before cutting them close to the ground. An old saw is a very convenient tool for this work, and it does not leave a broken or split stalk as does a knife. After the tops have been removed the clumps may be dug at any time before the ground freezes, but as an early hard freeze sometimes comes unexpectedly it is best to get them packed away as soon as possible. Use a spading fork in loosening the clump by carefully working around the edge at least 10 inches from the stalk. Gently pry up from either side until the long roots are loosened, then lift the bulbs from the ground by using the fork as a lever with the right hand and lifting up on the stalk with the left. In this manner the whole clump and attached soil should come up and not a bulb should be spoiled. If plenty of storage room is available it would be better to leave all the soil on the roots as it is the very best protection for the neck of the bulb, which if broken either spoils the tuber entirely or weakens it until it is of little value. It is very important that the roots should be placed upside down as this permits all the sap to run out of the stalk and not settle in the base to cause rot which might extend down to the crown of the clump. Dahlias dug and stored in this manner should keep in the best condition and when dividing time comes in the spring they should be plump and full of life. In dividing the clumps be sure and get a portion of the crown or stalk with each tuber as the bud is located beyond the neck of the root and this is absolutely necessary to secure a plant.

The Dahlia Society of Colorado—

The Dahlia Society of Colorado holds its annual show each year in the Denver Auditorium, usually the Wednesday and Thursday after Labor day. All persons interested in Dahlias are urged to attend the show and see the display. Any one may stage an exhibit for a very small fee and to members of the society there is no charge. Membership dues are only \$1.00 per year for active members and much benefit may be derived by attending the monthly meetings of the society which are held on the first Monday evening of every month.

PRIZES WON
AT
FIFTH ANNUAL DAHLIA SHOW
GIVEN BY
THE DAHLIA SOCIETY OF COLORADO
SEPTEMBER 9 AND 10, 1925

- First Prize—Best Collection of Show Dahlias.
- First Prize—Best Collection of Peony Dahlias.
- First Prize—Best Collection of Collarettes.
- First Prize—Best Basket of Single Dahlias.
- First Prize—Best Vase of White Dahlias.
- First Prize—Largest Cactus Dahlia.
- Second Prize—Most Meritorious Exhibit.
- Second Prize—Best Collection of Decorative Dahlias.
- Second Prize—Best Collection of Hybrid Cactus Dahlias.
- Second Prize—Best Collection of Cactus Dahlias.
- Second Prize—Best Collection of Pompon Dahlias.
- Second Prize—Largest Show Dahlia.
- Second Prize—Largest Peony Dahlia.
- Second Prize—Best Vase of Red Dahlias.
- Second Prize—Best Vase of Purple Dahlias.
- Second Prize—Best Vase of Yellow Dahlias.
- Third Prize—Most Artistic Exhibit.
- Third Prize—Best Vase of Any Other Color.

Mrs. Edna Spencer
